WHY STORE YOUR WINE AT WINEVAULT

Winevault, Australia's most technologically advanced wine storage facility, was built to service the growing need for secure, climate controlled wine storage. Australia's harsh climate presents many challenges for all wine lovers who store their treasured collections at home. If you are like most wine lovers, space and temperature is an issue, and this is where Winevault will assist you.

Winevault provides storage solutions for all wine lovers, and is able to house collections from 1 bottle through to as many as you own. Winevault's secure climate controlled warehouses offer the best possible conditions with temperature, humidity, light and air circulation being strictly monitored 24/7. In addition, Winevault will take the hassle out of having to be at home when wine is delivered by accepting your wine purchases and notifying you of their safe arrival.

It is a buyers market out there at the moment, with many of Australia's finest wines being sold well below their normal retail prices. This trend is set to continue for the next few years, so take advantage now, stock up your cellar and let these gems develop to their full potential. After all, there is nothing quite like opening a well cellared bottle of wine with good friends or family.

SUMMARY OF WINEVAULTS ADVANTAGES

- Constant temperature between 13 & 16 degrees Celsius
- Relative humidity of 65-70%
- Lighting control to eliminate UV rays
- Air flow management and the use of Ozone systems to filter air
- Zero vibration or movement of stock
- Security, featuring pin code access and biometric hand scan entry, CCTV, tremor alarms, motion detectors all interlinked to back-to-base monitoring 24 hrs.

THE WINE TUNNEL

We are proud to present a piece of Sydney's history... a 100 year old underground tunnel. This landmark has been fully restored, and is now used to host wine tastings, wine-maker dinners, business meetings and various other functions. For more information, please contact Winevault.

IMPORTANT!

Storing your wine at home, in less than ideal conditions will result in premature ageing, leakage, damage and the loss of your treasured drop. Constant temperature as well as constant humidity is crucial for wine development. So, don't risk it, call Winevault and reserve your unit or space in our managed cellar.
